## GABLE & RAKED FRAME ORDERING NOTES

PLEASE REFER BELOW BEFORE PRICING YOUR FRAME

### Standard frame specification

- Gable & Raked frames are manufactured using slim outer frame as standard
- All beading comes properly fitted into frame & takes 28mm glass units
- If frame is a sunburst, actual glass size templates will be supplied as standard
- Unless specified, frames will be internally beaded and face drained as standard
- All frames have fully welded corners with mechanically jointed mullions
- Mechanical joints are machine scribed & hand finished
- Reinforcing will always be fitted where practical

### Frame size guidance

- Minimum overall frame height for sunburst is 700mm, if lower POA
- We can weld upstands below 100mm, but if this is required POA
- Depending on profile, the minimum pitch welded to a point is 17.5 degrees
- We recommend for structural reasons that frames over 4500mm should be split
- Always view size limitations for compatibility before pricing
- For pricing purposes only, maximum frame height is 1800mm, if larger POA
- Whether your frame is to a point or has an upstand, the price remains the same

### Ordering / Quoting

- Faxed Orders / Quotations are preferred using the GableCraft Order Form which can be downloaded at [www.GableCraft.com/Downloads.asp](http://www.GableCraft.com/Downloads.asp)

- Please view website for a list of all profiles used
